Professional Summary

Experienced Full Stack Developer skilled in .NET, MS SQL, Vue.js, and API integration, with a track record of delivering end-to-end web applications for streamlined business operations. Adept at translating business needs into custom enterprise software (MRP, POS, Logistics), optimizing complex database performance by 40–60%, and developing responsive frontends integrated with robust backend architectures.

Technical Skills

- **Backend Development:** .NET Web API, .NET Framework, VB, RESTful API Integration
- **Frontend Development:** Vue.js, JavaScript, jQuery, Bootstrap, HTML, CSS
- **Database & Architecture:** MS SQL, T-SQL Scripting, Database Design, Stored Procedures, Schema Optimization
- **Tools & Methodologies:** Git, System UI/UX Design, Testing & Debugging, Performance Optimization, Data Governance

Professional Experience

Full Stack Developer (Freelance)

Self-employed | March 2024 – Present

- **Enterprise Solutions:** Support custom enterprise systems—including MRP, POS, QC Audit, Issue Tracker, and Shipping Logistics platforms—for small to medium enterprise clients to automate business operations.
- **Full-Stack Engineering:** Build responsive frontend user interfaces using Vue.js, Bootstrap, and jQuery, integrated with .NET Web APIs for reliable data flow and workflow efficiency.
- **Database Management:** Structure and maintain MS SQL databases, designing schemas and stored procedures to ensure backend stability and query efficiency.
- **Quality & Optimization:** Perform system UI/UX refinements, API integration testing, and bug fixing to improve software performance and end-user adoption.

SQL Developer

JME Technology (WA) Pty Ltd | Jan 2018 – Jul 2018

- **Query Optimization:** Authored and tuned complex T-SQL scripts to diagnose slow-running database operations, achieving a 40–60% reduction in key query execution times.
- **Data Governance:** Collaborated on developing data governance frameworks, reducing reporting errors and enhancing business data reliability for stakeholders.

Education

Bachelor of Information Technology
RMIT University | Graduated 2023

Diploma of Information Technology
RMIT University | Graduated 2017
